Chartalism

In macroeconomics, chartalism is a theory of money that argues that money originated with states' attempts to direct economic activity rather than as a spontaneous solution to the problems with barter or as a means with which to tokenize debt, and that fiat currency has value in exchange because of sovereign power to levy taxes on economic activity payable in the currency they issue.

Now Available: 'A Treatise on Money' by Luis de Molina ...

CLP Academic has now released A Treatise on Money, a newly translated selection from Luis de Molina's larger work, On Justice and Right (De iustitia et iure). The release is part of the growing series from Acton: Sources in Early Modern Economics, Ethics, and Law. Molina (1535–1600) was one of the most eminent

theologians of the Jesuit order in the sixteenth century.

A History of Business Ethics

His discussion of trade, exchange, property, acquisition, money and wealth have an almost modern ring, ... those in business ethics did not see ethics as coming after economics and law but as restraints on economic activity and as a source for justifying law and for proposing additional legal restraints on business when appropriate. As a result ...

Juan de Mariana and the Modern American Politics of Money ...

In early modern Spain, the emphasis on natural law by the Neo-Scholastics at Salamanca led down this road as well, especially among the Jesuits, and the thought of Juan de Mariana is perhaps the most notorious example. For a detailed survey and fuller discussion, see Brincat (2008). 11.
