BX25 Tires slipping, moving RimGard into tubes.

Hope your cleaning and recounting works. The titan /Goodyear on line manual says low tire pressure, too much lubricant used in mounting, and poor knurling on the rim bead surface are the prime causes. You said you are running the recommended pressure. It will be a major problem now with tubes. Back in the old days when we had all tubes tires that was a major problem.

BX23 Kubota snowblower (BX2750?) availability

Chris: So I might be able to find a used snowblower but I might need to buy from the dealer a sub-frame and a drive axle. Good observation. They are quoting \$3,200 (verbal) for either a BX23 or a BX25 snowblower.
